AT ROVING BUSHTOPS

LOCATION

Having pioneered the idea of 'wild luxury' at Mara Bushtops and Serengeti Bushtops, we were determined that our third Bushtops location should be at least their equal for game viewing and comfort alike.

However, we wanted something different - unique even - so in 2015 we came up with the concept of Roving Bushtops, a luxury safari camp on wheels which could move between bases to make the most of the annual migration.

During the winter we pitch camp at Kusini in the southern Serengeti to witness the birth of the next generation of migrating wildebeest and zebra.

The wildebeest and their attendant zebras follow their own mysterious migratory timetable, so precisely where and when they can be found is impossible to predict with total confidence. Having two locations gives us the best chance of being in the right place at the right times.

However, with or without the migration, the most spectacular show on earth never ends. For anyone who loves nature and wide-open vistas, both Roving Bushtops locations provide fabulous year-round access to the Serengeti's animals, birds and flora at their most thrilling. The sheer quantity of game here is phenomenal at any time, with resident herbivores stalked by loping leopards, charismatic cheetah and languid lions.

VENUE

.....

Guests stay in eight superbly-specified tents, featuring king-size beds and 24 hour power. Each en-suite bathroom includes a flushing toilet, bath, vanity basins and open sided showers.

We make sure there is absolutely no compromise on indulgence, with every need being catered for through 24 hour butler service.

During the day, tent walls can be opened on three sides, enabling panoramic views of the surrounding bush.

EXPERIENCE

.....

However tempting it may be to luxuriate in camp, the true glory of Roving Bushtops is its immediate access to the world's greatest wildlife spectacles. There is no need to travel to the animals: they are all around you. We drive amongst them, not to reach them.

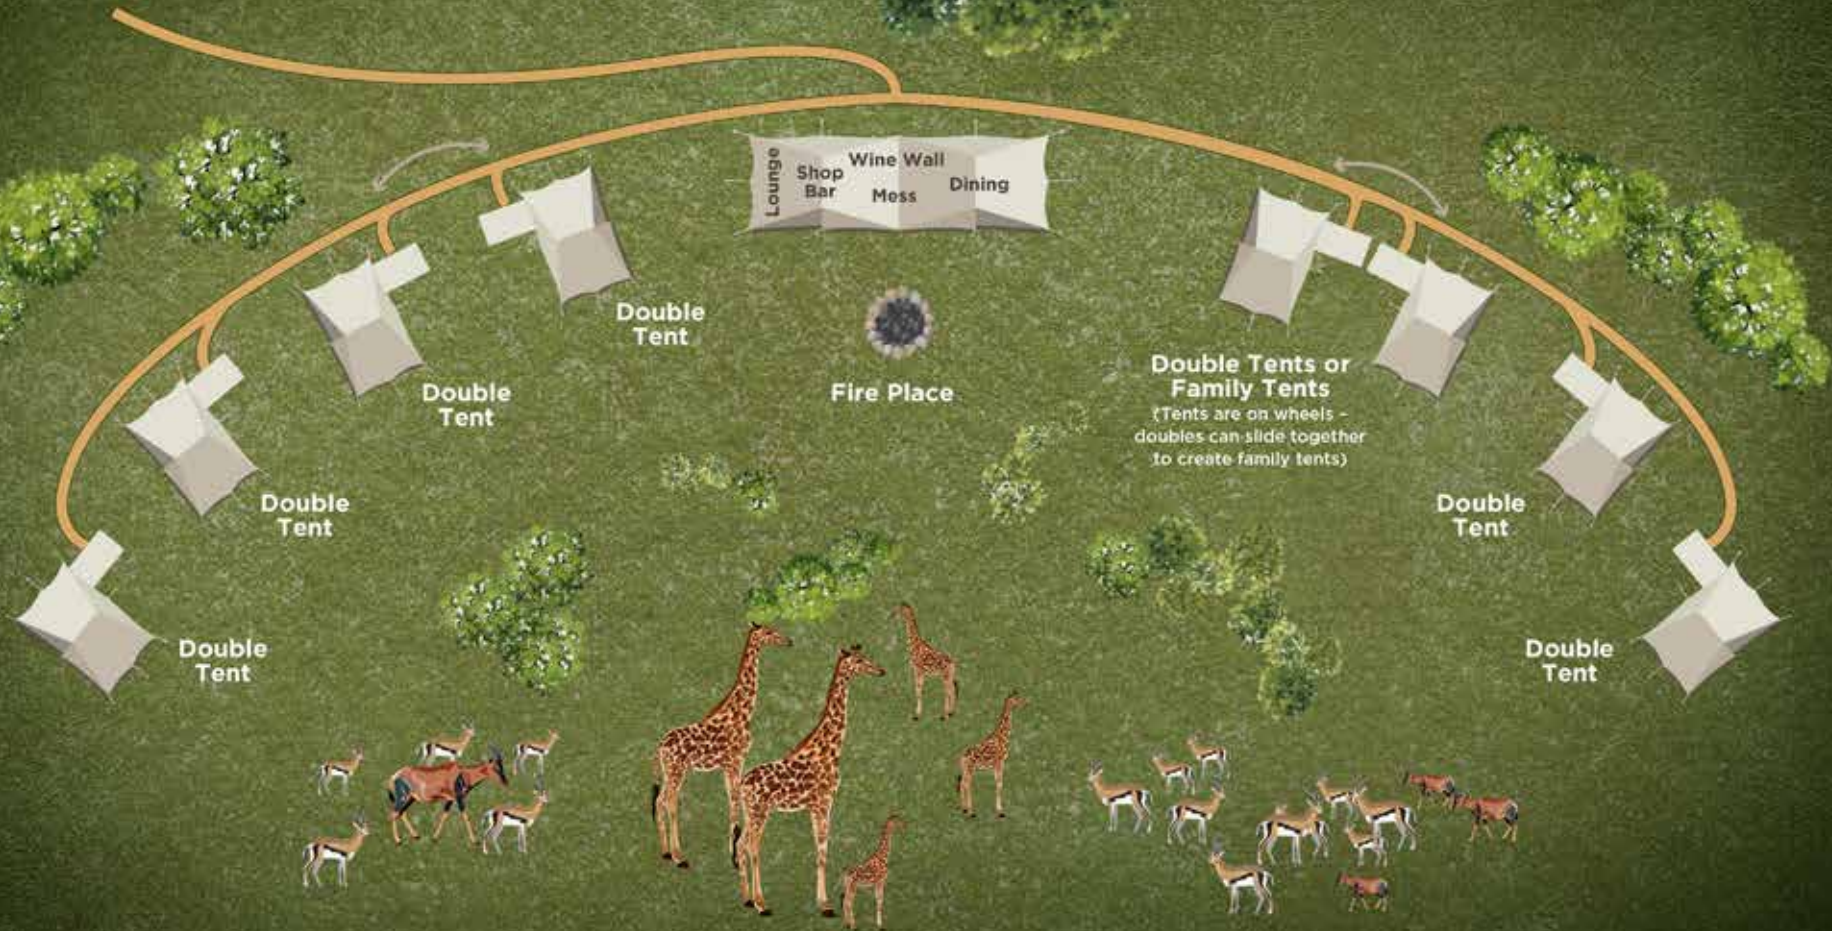

Daily game drives are led by expert rangers, supported by keen-eyed local spotters. We have always sourced and converted some of the best gameviewing vehicles in East Africa, so each day's roving takes place in superbly equipped, ultra-reliable open 4x4 Land Cruisers.

As each day draws to a close, you and your fellow guests can re-gather at Roving Bushtops' dining tent. Here you select from a sophisticated menu in a haven of contemporary luxury, set against arguably the world's greatest safari backdrop. Alternatively you can wine and dine in the privacy of your own tent.

And when you leave, we know that unforgettable memories will combine with the knowledge that you have left no environmental footprint whatsoever, helping to preserve one of the most special places on earth.
